

CorrosionX Extended Duty combines the best of CorrosionX and CorrosionX Heavy Duty. It penetrates existing rust and corrosion, displaces moisture and shuts down electrolysis. It leaves a non-hardening, resilient coating that provides maximum protection against moisture intrusion.

- Easily doubles the life of your trailer
- Applications need no preparation, simply leave the boat on the trailer
- Applicable even on wet, already corroded metal
- Stops electrolysis on impact
- Non-flammable, you can weld over it
- Safe to over 25,000 volt on all electrics and electronics
- The best lubricant for your winch and steel wires
- Drives water away from the metal, this NOT enclosing existing corrosion, but stopping and preventing rust and more by "Polar Bonding"
