

GREENLIGHT PROGRAM

Food Grade Range

Maintaining Food Safety behind the scenes

Food Grade Chain Lube

A special blend of synthetic lubricants and mineral oil, designed to keep roller drive and conveyor chains lubricated. It is specifically designed to provide the convenience of aerosol application where incidental food contact may occur. **CRC Food Grade Chain Lube** penetrates, lubricates and protects moving parts by reducing friction and wear.

Code FG03055
Size 340g

Features and Benefits

- NSF H1 registered for incidental food contact
- Non-drying film effectively lubricates metal surfaces
- Formula contains anti-wear properties to extend chain life
- Foaming action penetrates chain bushings and pins, and provides maximum adhesion

Food Grade Water Based Silicone

CRC Water Based Silicone is a non-flammable, NSF H1 registered multi-purpose silicone spray for food processing and handling applications. It forms a white emulsion that is odourless and non-staining, and lubricates in most metal-to-metal applications. **CRC Water Based Silicone** is a silicone rich formula that eliminates binding and sticking, while protecting most surfaces.

Code FG03035
Size 369g

Features and Benefits

- NSF H1 registered for incidental food contact
- Non-hardening film minimises corrosion and provides excellent lubricity
- Reduces galling and friction
- Harmless to most rubbers and plastics
- Working temperature range -20°C to +200°C

Food Grade White Grease

CRC Food Grade White Grease is a high purity, high quality aluminium complex grease that provides superior lubrication and durability in many food and pharmaceutical processing applications. Designed for high load applications requiring a long grease life. Protects equipment against rust, oxidation and wear.

Code FG03038
Size 284g

Features and Benefits

- NSF H1 registered for incidental food contact
- Excellent adhesion resists throw-off and shear breakdown
- Resistant to water, salt spray and detergent
- Wide operating temperature range -30°C to +110°C

Food Grade Silicone – Non aerosol

A multi-purpose silicone spray for food processing and handling applications. It forms a colourless, odourless film that lubricates and insulates in most metal-to-metal applications. Silicone film eliminates binding and sticking, while protecting most surfaces. In addition, it may be used as a release agent.

Code FG03039
Size 473ml

Features and Benefits

- NSF H1 registered for incidental food contact
- Harmless to most rubbers and plastics
- Wide effective temperature range -40°C to +200°C
- Excellent release agent and lubricant for all surfaces

Food Grade Silicone – Aerosol

A multi-purpose silicone spray for food processing and handling applications. It forms a colourless, odourless film that lubricates and insulates in most metal-to-metal applications. Silicone film eliminates binding and sticking, while protecting most surfaces. In addition, it may be used as a release agent.

Code FG03040
Size 284g

Features and Benefits

- Low surface tension allows for better coverage and deeper penetration
- Non-hardening film
- Excellent protection and lubrication
- Harmless to most rubbers and plastics
- 360° valve
- Wide temperature range -40°C to +200°C

Food Grade Multi-Purpose Grease

An NLGI Grade 2 aluminium complex-based superior multi-purpose grease for food processing and handling. It will not pound out bearings and bushings during shock loads, and contains excellent water resistance, and rust and corrosion protection. A superior extreme pressure additive package provides a Timken rating of 40lbs.

Code FGSL35600
Size 397g

Features and Benefits

- NSF H1 registered for incidental food contact
- Wide temperature range -35°C to +150°C
- Timken OK load of 40lbs

Food Grade Synthetic Grease

An NLGI 2 lubricating grease formulated with the highest quality synthetic NSF H1 authorised raw materials available. High dropping point makes it particularly useful in high temperature applications. It also performs extremely well in cold temperature applications, as the base fluid exhibits a very low pour point.

Code FGSL35610
Size 397g

Features and Benefits

- NSF H1 registered for incidental food contact
- Water wash-down resistant
- Resists rust and oxidation
- Wide temperature range -40°C to +200°C

Food Grade Anti-Seize Compound

A premium quality anti-seize compound developed specifically for use in applications where incidental food contact is possible, and is composed entirely of ingredients that meet NSF H1 requirements. This aluminium complex based anti-seize compound protects metal parts from seizure, galling, rust, corrosion and heat freeze by tenaciously adhering to the metal surface.

Code FGSL35906
Size 80z

Features and Benefits

- NSF H1 registered for incidental food contact
- Odourless, tasteless, non-staining
- Resists rust and oxidation
- Wide temperature range -25°C to +980°C
- Convenient brush-top

Food Grade Silicone Grease

CRC Food Grade Silicone Grease is a thin, non-curing silicone grease designed for sealing, lubricating and water proofing 'O' rings, and other rubber and plastic parts used in food processing equipment. It is resistant to oil, water and chemicals, and will not harden, freeze, dry or melt.

Code FG3037
Size 75ml

Features and Benefits

- Odourless, tasteless, non-staining
- Seals, lubricates, protects, insulates and waterproofs
- Wide temperature range -40°C to +200°C
- Contains no metals

Heavy Duty Grease Gun

CRC Heavy Duty Lever Grease Gun is manufactured to suit the 397g Food Grade range of cartridges.

Code FGSL37019

- Accepted for incidental food contact
- NSF H1
