

### **The new SKF mobile tool: Always there to support you when mounting a bearing!**

**SKF Bearing Assist** enables the user to easily find the information needed where and when it is needed through the application filters. It provides instructions to the user at the right place and time enabling the user even with little experience to mount a bearing correctly. It also enables a group of users to share asset information, history, notes, and photos from jobs done to increase and simplify collaboration and knowledge transfer.

- Save time and effort when mounting bearings
- Increase skills and methods for correct mounting of bearings
- Improve collaboration and knowledge within the maintenance department

**Download the SKF Bearing Assist App now and ensure quick, correct, and easy mounting.**
