

Engineered for superior performance

The **optibelt CONVEYOR POWER** is a high performance ribbed belt for the field of transport and logistics. The unique tension cords of high-quality polyamide provide the required elasticity for the ribbed belt and consequently increase the permanent resistance also for frequent start/stop cycles. Thanks to the material composition used, the belt is optimally prepared also for the coldest conditions, and the rubber mixture on the profile side combines a high abrasion resistance with maximum grip.

FIELDS OF APPLICATION

- Straight roller conveyors
- Curved paths
- Accumulating conveyors
- Continuous conveyors
- Sorters
- Transfer lines
- Outfeed and infeed systems
- Semi-automatic and fully automatic storage systems
- And more!

With an efficiency of up to 97% and thanks to the optimised design for the application, the applicability is increased, the maintenance effort is reduced and the service intervals are shortened.
