

Cleans, Lubricates & Prevents Rust Like Nothing Else

ReelX is the ultimate lubricant for fishing reels, providing leading corrosion prevention while keeping reels optimally lubricated for longer, smoother casts.

It is an extreme pressure lubricant that reduces and prevents wear, service cost and gear failure. It contains no wax, tar, silicone or other solids, so it can't gum up. It also displaces moisture and won't harm monofilament.

Now that summer is here, it's time to stock up on ReelX for your fishing trips and see why it outperforms all other reel lubricants!
