

# Dixon Hose, Fittings, Valves, Couplings and Clamps

## Hose

Dixon offers a full range of hose including rubber, PVC, layflat, composite, ducting and metallic with a range of end configurations, flexible joints, hose armour and industrial rubber sheeting.

## Hose Fittings

Dixon manufactures a comprehensive range of hose fittings that include Camlocks, claw couplings, whip checks, air lubricators, strainers, shank fittings, boss fittings, brass hose fittings, wash down nozzles, dry disconnects, hydraulic and pneumatic quick connects, sanitary hose fittings and hosereels.

## Hose Assemblies

Dixon produces a large range of hose assemblies built to meet customers specifications. Upon completion of our request form and STAMPED checklist Dixon will engineer the most suitable hose for your application. Standard hose assemblies, hose maintenance and repairs are carried out in our on-site Hose Centres.

## Valves

Dixon's extensive range of valves include ball, butterfly, gate, check, pressure reducing & backflow, globe, strainers and a host of miscellaneous valves.

## Sanitary

Dixon has a comprehensive range of sanitary fittings through to a range of complex engineered products including pumps, valves and filtration that are used in all facets of food, beverage and pharmaceutical production.

## Pneumatic & Hydraulic Couplings

Dixon's Quick Coupling range offers product interchangeability to international & local manufacturer's products & standards. An easy to cross reference data file via Internet or smart phone application makes series selection easy.

## Clamps

Dixon's range of clamps comprises of pinch-on, worm gear, super, band style, bolted, spiral and wire binders.

## Dry Disconnect Couplings

Dixon's range of Dry Disconnect Couplings are designed for quick and spill free connection & disconnection of hoses and pipelines. Dry Disconnect Fittings are ideal where your product is expensive, hazardous to your workforce or environment, difficult / costly to clean up or prone to theft.
