

JSG's KF300 high-pressure hose NW4 is a flexible high-pressure hose suitable for medium high-pressure lines, lubricating or grease lines.

The high pressure flexible 8.6mm O.D. KF300 hose and the more rigid 16.9mm O.D. hose are designed to be used as the main supply lines, secondary to the lubrication point, or for hydraulic applications where the pressures do not exceed the pressure rating of the hose.

High Pressure Plastic Hose - 600m Roll

FEATURES

- Suitable for the transport of mineral and vegetable lubricants or those based on ester in centralized lubrication systems
- Good general chemical resistance against lubricant additives at temperatures exceeding 40°C
- UV and ozone stabilised
- Neutral against most atmospheric influences
- Excellent permanent bending qualities
- Low weight
- Low ratio of outer and inner diameter
