OVERVIEW

A Leading Distributor of Industrial Supplies

VISIT **APPLIEDNZ.CO.NZ**

Welcome to the newest edition of the Trans-Tasman *We Are* Applied™!

Founded in 1923, Applied has become one of the largest global Industrial Distributors in the world. Therefore, we want to give everyone an overview of our capabilities, including the comprehensive range of products and services we have at our disposal to Keep Industry Running.

With a global network of 580 branches, 12 distribution centres, and more than 6,200 employees, our specialised expertise connects today's challenges with tomorrow's opportunities. We want you to know that as your operational requirements become more demanding and testing in today's dynamic business environment, you can rely on Applied, our trusted brands, expertise and support to help you meet your challenges.

It is important to note that the value Applied provides takes many forms, from inventory optimisation that reduces your maintenance costs, to increased production and training. This, in conjunction with our strong supplier partnerships, ultimately enables us to find and recommend the most ideal solution. In a rapidly changing world, Applied stays at the forefront of innovation, building on our core strengths of comprehensive local inventory, specialised expertise, and superior customer service to deliver the latest solutions to you.

Looking ahead, Applied's primary focus is to boost your productivity and lower maintenance costs. Each year, we deliver tens of millions of dollars in documented added value for our customers. Through ongoing improvement initiatives, from rebuild and design to inventory management and customer-specific training, Applied provides a wide range of specialised, value-adding services. Like our products, you can trust that our services are backed by our specialists, with years of knowledge and industrial experience in critical applications such as gearboxes, motors, pumps, fans.

We look forward to continuing to expand our innovative solutions for the Industrial Internet of Things (IIoT) – engaging our Supply Partners in delivering smart products and systems that improve predictive and preventive maintenance, enable remote machine monitoring, and provide more automated and connected organisations. We aspire to be part of your journey, and look forward to utilising all our resources and capabilities to help you, our valued customer, grow sustainably.

JOE MANGIAPANE

OUR **BRAND**

At Applied Industrial Technologies® our customers are our focus.

We aim to provide you with a continuous commitment by offering a broad range of world-class products and solutions to suit any application.

We align ourselves with major brands and suppliers to ensure our customers have access to a leading range of quality products and solutions to service their needs.

We understand the demands of industry and do our very best to secure a competitive position in the marketplace.

As your operational requirements are ever changing, rely on Applied® for the trusted brands, expertise and support you require.

OUR **KEY VALUES**

What We Believe In

INTEGRITY
Honest and trustworthy in all we do

RESPECT
Fair and ethical relations with everyone

CUSTOMER FOCUS
Dedicated to customer needs, providing value-added service at every touch point

COMMITMENT TO EXCELLENCE
Quality in our products, service and support

ACCOUNTABILITY
Motivated and responsible for our actions and results

INNOVATION
Creative in generating value, anticipating and embracing change for new opportunities

CONTINUOUS IMPROVEMENT
Committed to becoming better as individuals and as a team

TEAMWORK
Working together, winning together

NEW PREMIUM SUPPLIERS

SCHAEFFLER

The Schaeffler Group has been driving forward groundbreaking inventions and developments in the field of motion technology for over 75 years. With innovative technologies, products, and services for electric mobility, CO_2-efficient drives, chassis solutions and renewable energies, the company is a reliable partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle. From bearing solutions and all types of linear guidance systems through to repair and monitoring services.

MOTION & CONTROL™ NSK

Established in 1916, NSK was the first company in Japan to produce ball bearings and has since become a global leader in the industry. With over 100 years of excellence in engineering, manufacturing and service, NSK have actively contributed to worldwide industrial development and the preservation of the environment.
NSK manufactures a wide range of bearings, including ball bearings, roller bearings, and ball bearing units, as well as precision machinery components like ball screws and linear guides. They also produce automotive components.

Martin

Since 1951, Martin Sprocket has been a leader in manufacturing of power transmission components, material handling systems, and industrial tools. Martin has built a reputation for delivering high quality power transmission products and is known for durability, precision, and performance across a wide range of industries worldwide
Martin Sprockets products are manufactured using advanced heat treatment processes to enhance wear resistance and extend service life.

JOHN KING

John King Chains is a fifth-generation, family-owned British manufacturer specialising in conveyor chains, sprockets, and material handling solutions since 1926. The company has earned global recognition for its commitment to quality, innovation, and customer service. Utilising advanced manufacturing technologies, John King Chains has supported multiple industries such as mining, cement, sugar, timber, energy, food processing, and waste processing across more than 70 countries.

BOWMAN
SPLIT BEARINGS DIVISION

Bowman International is at the forefront of revolutionising the bearing industry, setting the highest standards of precision, innovation and performance on a global scale. With decades of experience and a relentless drive for excellence, we are pioneers in the design, manufacture, and distribution of bearings, sintered components and advanced 3D printed parts. Our cutting-edge technologies and global reach position us as the trusted standard for performance, innovation and reliability worldwide.

DONGHUA

A globally recognised brand with manufacturing expertise spanning over three decades - offering a comprehensive range of high performance roller chains engineered for durability, reliability, and precision. Donghua has been supporting industrial and agricultural applications, including power transmission, lifting, and conveying systems.
Donghua roller chains are available in both ANSI and BS standards, made to order attachment chain that is supported by robust technical expertise.

Woo Chang Coupling Co.,Ltd
Mechanical Power Transmission Systems

Woo Chang Coupling Co. Ltd. is a leading South Korean manufacturer specialising in high precision industrial couplings. The company produces a wide range of robust and reliable power transmission components, including flexible, universal, and servo couplings. These essential products are engineered to connect and protect rotating machinery like motors, pumps, and gears in demanding applications. Renowned for their durability and innovation, Woo Chang's couplings are trusted globally in critical industries such as automation, robotics, steel, and helping to improve operational efficiency and minimise downtime for their clients.

TRUSTED SKF PARTNER

SKF AUTHORISED DISTRIBUTOR

HOUSINGS - BEARINGS - CONDITION MONITORING - LUBRICATION - BEARING HEATERS - SEALS

As the longest-standing independent national SKF distributor for Australia and New Zealand with a strong network of 30+ locations across the region, Applied provides the largest locally stock planned range of SKF products, trusted by customers across sectors for performance and reliability.

Applied has built a deep understanding of SKF's extensive product range, and maintenance solutions across a wide range of industries, delivering technical expertise, product knowledge, and customer support.

Our customers benefit from:

- The largest and most complete range of genuine SKF products
- Local, expert technical teams ready to provide tailored support
- Trusted advice backed by years of frontline experience
- The convenience of online purchasing via our Australian website

Applied is proud of its ongoing role in powering success with SKF products and solutions, and we remain your most experienced and dependable source for performance-driven results.
