

Garlock® Sealing Products Overview

Fibre and GYLON Gasketing

Garlock® offers a full range of soft cut gasket materials ranging from cork & rubber to compressed fibre. Garlock® also provides the engineered GRAPHLOCK® gaskets as well as the unique PTFE blends of GYLON® gaskets.

KLOZURE Lip Seals & Bearing Isolators

Garlock® produces an advanced range of lip seals that are designed with specifically engineered MILL-RIGHT® elastomers. Garlock® is also home to the most advanced range of bearing isolators, providing the most effective protection for bearings.

Metallic Gaskets

Garlock® produces an extensive range of metallic gaskets including FLEXSEAL® spiral wound, Kammprofile™, ring type joint, solid metal, metal jacketed, and heat exchanger gaskets.

Expansion Joints

Elastomer, Fabric & Metallic expansion joints are made with the highest quality control to provide the best performance in general services and the most demanding conditions.

Mechanical Seals

Garlock® has an extensive range of mechanical seals including rubber bellows, welded metal bellows, single spring, wave spring, multi-spring, gas service, slurry service, cartridge, mixer/agitator, refrigerator compressor and submersible pump seals.

Compression Packaging

Garlock® has a comprehensive range of compressions packing styles and engineered sets to cater for general services and the most demanding conditions. Construction materials include Graphite, PTFE, Aramid and Synthetic Fibres structured with engineered lubrication systems.

Hydraulic Seals

CHEVRON® vee ring packing and GARTHANE® U-Seals, as well as Polytop and SLUDGEPAK® sets provide the highest performance within the most demanding conditions found in reciprocating equipment.

More than just great products...

Beyond offering you the widest available range of products for packing and sealing, Garlock enhances the value of its products with technical services and comprehensive training programs:

- ISO 9001:2008 registration for Industrial Gasketing, Industrial Packing, KLOZURE® Oil Seals, Bearing Protectors, Expansion Joints, Hydraulic Components, Mechanical Seals, and Industrial Rubber Products.
- A global network of stocking Authorised Garlock Distributors.
- Factory sales representatives and applications engineers available for problem solving when and where it is needed.
1800 GARLOCK telephone number for immediate product information and technical support.
- Technical field seminars on all Garlock products.
- The most sophisticated and most comprehensive test facilities available.
- Factory-sponsored product training programs including hands-on seminars, to ensure that Garlock representatives and their distributor personnel are the best in the industry.
- Technical Bulletins to keep you up-to-date on product enhancements and changes.
- In-plant surveys of equipment and processes, providing the customer with recommendations to identify and eliminate sealing and packing problems before they start.

Customers who specify Garlock fluid sealing products get, at no extra cost, the high quality support needed to run a profitable operation. For more information or for technical assistance please call 1800 GARLOCK.
