

LOCTITE

LOCTITE THREADLOCKERS RELIABLE AND REMOVABLE

LOCTITE threadlockers are proven to increase the reliability of threaded joints by providing more strength and can also be disassembled for service needs

LOCTITE THREADLOCKERS - RELIABILITY

LOCTITE THREADLOCKERS ARE A PROVEN, STRONG ALTERNATIVE TO MECHANICAL FASTENERS BECAUSE THEY:

Fill all gaps to prevent loosening

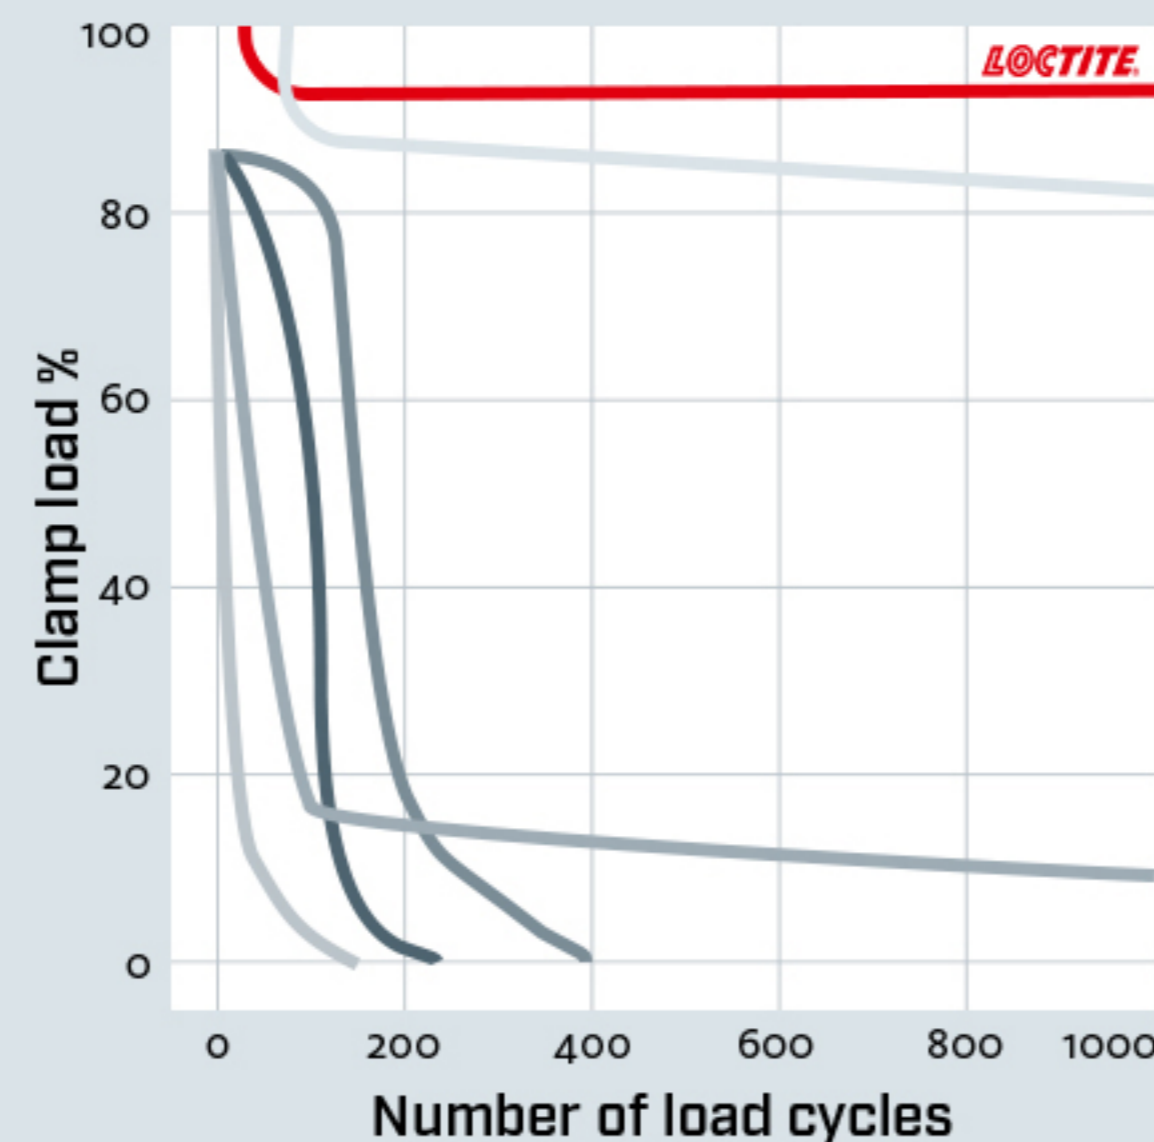

Maintain high clamp load with lower tightening torque

Provide excellent thermal and chemical resistance

SEE THE PROOF!

Vibrational loosening, Clamp Load retention comparison

LOCTITE

Spring Washer

Tooth Washer

Elastic Stop Nut

Toothed Flange Bolt

Standard Nut

LOCTITE THREADLOCKERS- REMOVABILITY

LOCTITE THREADLOCKERS COME IN VARIOUS STRENGTHS, RANGING FROM REMOVABLE WITH HAND TOOLS TO REMOVABLE WITH LOCALIZED HEAT

Low

Allows disassembly with standard hand tools

Medium

Localized heat may be required for disassembly

High
