# Goodyear Engineered Products. One Source. One Solution.

## Industrial Hose

The customer first, always. We deliver on this every day by enhancing your organisation's material transfer performance with a wide variety of industrial hose, fittings and accessories. With the additional strength of our support services, you'll know you have chosen an industrial hose brand you can trust, one that stands for reliability and striving for your complete satisfaction.

## Power Transmission Products

Goodyear Engineered Products rubber compounded PT belting delivers lasting performance and value with every power transmission belt installed. From our premium, lower noise Falcon HTC® and Eagle NRG™ synchronous drive systems, to our MaximizerPro™ drive analysis software, we seek to make your business more profitable by reducing your downtime and energy consumption.

## Automotive Replacement Products

Research and testing. Just two of the reasons Goodyear automotive replacement products deliver the ultimate in performance and value. We make the automotive and light truck belts and hoses you need, including Gatorback Poly-V belts with Quiet Channel Technology, the belt used on NASCAR Sprint Cup race cars. Track-to-Street technology is just one more way we provide products that help accelerate your business.

## Sheet Rubber

Why look anywhere else for your sheet rubber requirements? With local mixing and manufacturing capabilities, we are able to quickly respond to custom requirements with minimal lead times and cost. Combine this with market leading research and development and you soon see why Veyance are the logical choice for your sheet rubber requirements. Whether it be general grade insertion rubber or high grade lining rubber; you'll find what you need at Veyance Engineered Products.

## Air Springs

Goodyear Engineered Products Super-Cushion® air springs are superior quality products, designed and built for durability, performance and value. Through strict design parameters, Super-Cushion air springs operate dependably in the toughest conditions and in many types of industrial applications. You'll know you have chosen an air spring brand that you can trust, one that stands for reliability and striving for your complete satisfaction. With quality built into every Super-Cushion air spring, they are made to last.
